Nike Air Force 1 Low Shoes

Quickstrike Wallenberg March 2010 Recently Sneaker News previewed an upcoming [Nike Air Force 1 Low Shoes](#) Quickstrike that was thought to be a St. Patricks Day colourway. Given the color-blocking and release timing of the pair, making the St. Pattys Day connection seemed obvious, but the beer-drenched holiday actually has no bearing on the inspiration behind the colourway. The shoe is actually a tribute to a small pam tree that grew on the steps of the Wallenberg Four, a famous skate spot in San Francisco. The midsole represents the second step of the Wallenberg Four, with the dark-grey colored upper midsole assuming the role as the waxed ledge. The insoles are a close-up image of the tree that rooted itself in the historic skater landmark. Check out new images of the shoe as well as the tree that planted the idea behind these black blkak Nike Htm Air Force 1 .

Elba [Nike Air Force 1](#) Black History Month 2010 Idris Elba was spotted sitting courtside at the Lakers game on Tuesday night, but star-sightings in LA are the norm. Elba is known for his many roles as intelligent, authoritative individuals, as seen as his portrayal of Stringer Bell in HBO's *The Wire* and of Charles Miner, the appointed manager of the bumbling Michael Scott in *The Office*. What Elba isn't known for is being a sneakerhead, which is why this star-sighting was particularly interesting; Elba was wearing the white varsity red Nike Air Force 1 Black History Month 2010 that released early February, and given Elba's Ghanaian and Sierra Leonean background, the choice of shoes is the least surprising of all.
